

# Redefining foot soaks

Daily Micro-Cleansing Foot Soak

Therapeutic Foot Soak

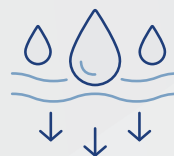

## Cleanses

Microscopic cleansing action removes dirt, oils, and sweat that contain bacteria and fungus

## Protects

Susceptible areas are coated in a silky, protective layer that helps moisture retention and hygiene

## Moisturizes

Proven ingredients hydrate skin for soft feeling and healthy looking feet

## Deep Penetration

Proprietary delivery vehicle enhances penetration into skin and nails

Patients with **eczema, fungus, wounds, ingrown nails, calluses, and interdigital conditions** can benefit from the ability to exfoliate and keep skin and nails clear of microscopic dirt, oil, and debris that carry bacteria and fungus.
