

Therapeutic soaks for better skin and nails

DAMAGED SKIN BARRIER

Irritants & Allergens

The outer layers are disrupted, allowing irritants into skin

Rough & Callused Skin

The skin barrier can't shed dead skin cells, leading to build up

No Effective Barrier

The skin cells and extracellular matrix aren't able to form a barrier

Dry & Cracked Skin

Water is lost through the skin, causing low skin elasticity

VS.

HEALTHY SKIN BARRIER

using Tolcylen Foot Soaks

Sodium Cocoyl Isethionate

Specialized cleanser removes irritants and allergens

Lactic Acid, Urea

Severs bonds to shed dead cells for rapid exfoliation

Allantoin, Powdered Honey

Deposits thin, breathable layer to support extracellular matrix

Urea, Allantoin

Water is lost through the skin, causing low skin elasticity
